Performance for the portfolio is reported net of all advisory fees and includes reinvestment of dividends and other earnings. Performance less than one year is not annualized. Performance data shown represents past performance and is no guarantee of future results. Current performance may be higher or lower than the performance shown. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. To obtain performance data current to the most recent month-end, visit www.dimensional.com. Performance includes reinvestment of dividends and other earnings. Returns for periods shorter than one year are not annualized. The market price return is calculated from closing prices as determined by the fund's listing exchange. If you trade your shares at another time, your return may differ.

ETFs trade like stocks, fluctuate in market value and may trade either at a premium or discount to their net asset value. ETF shares trade at market price and are not individually redeemable with the issuing fund, other than in large share amounts called creation units. ETFs are subject to risk similar to those of stocks, including those regarding short-selling and margin account maintenance. Brokerage commissions and expenses will reduce returns.
